

Figure 3.9 Rotary knob wet/dry

- Wet** Turn the rotary knob (A) to the end-limit "wet" = 100% operating with saturated steam
- Dry** Turn the rotary knob (A) to the end-limit "dry" = 100% operating with dry steam

The intensity of the mixing ratio of the steam function will be regulated by turning the rotary knob (A) as 0-100%. The mixing ratio can also be adjusted during the steam operation.
